Reclaim Backpack 13-14.1

Backpack for notebooks made of recycled PET

Reclaim Backpack lets you carry your notebook comfortably and securely thanks to the lockable notebook compartment that is cushioned with HDF (High Density Foam). This bag is part of our Reclaim collection that consists of notebook cases made primarily from recycled PET. Recycled PET is a type of polyester that has a considerably lower impact on the environment compared to newly produced polyester. The collection is one way DICOTA is making a substantive contribution to lower our environmental footprints.

A notebook strap makes the notebook stay in place in its compartment and there is also plenty of room in the spacious main compartment for documents and accessories. Cables can be stored in a compartment in the front pocket. In the front pocket you can also place accessories such as pens or mobile phone in the designated compartments. There are also practical mesh pockets on the outside of the backpack. Reclaim Backpack has breathable back padding and comfortable padded shoulder straps.

13-14.1

Art.No.: D30471

Weight: 0.56kg / 1lbs, 3.7ounces

≤ 13.39 x 1.57 x 9.65 inches
